

MAKE A SPLASH

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

Parent/Child Lessons– Formatted to build the comfort level of the child around water while also continuing to grow the relationship between the adult and the child participating. This Class helps to make water interaction with your young participant positive and comfortable Experience with trained instructors leading all adult/child duos. Games, songs, rhymes, and toys make this class a great introduction to being around water for younger children.

Group Lessons- Each class will be following a set curriculum. Our instructors will be handing out report cards on the last day of classes so that you are able to see what your child is doing well on and what they might need more practice on. The goal of each class is to have top marks in all areas before moving on to the next group class level. Depending on each session's turnout, there may be an experienced student with new participant. .
